They each have different weaknesses that you must discover to defeat them. In the 10th WORLD there is an 11th and final stage. ### BOUNCE BALL BACK AND BREAK THE PANELS

The object of the game is to control the characters and bounce the ball back to break the panels. When all the panels on the screen are broken, you clear the stage and move on to the next stage.

Some panels can be broken with the standard Ball, others cannot: Panels can be broken with 1, 2 or 3 hits scoring from 100 up to 3000 points. The panels that need more than the normal Ball to break are worth 3000 points.

### BREAK MORE THAN 1 PANEL TO GET BONUS COMBO POINTS

When you break more than 2 panels before the ball returns to Prism or Rhythm, you can earn high points with combos. You can also gain Magical Orbs that will help you in your attacks. So go for the combos!
